Overview

NOC, Oklahoma's first public two-year community college, is a multi-location, land grant institution that provides high quality, accessible, and affordable educational opportunities and services to Oklahoma and in particular to the northern Oklahoma service area. NOC serves nearly 4,000 students through the home campus in Tonkawa, branch in Enid and the NOC/Oklahoma State University (OSU) Gateway Program in Stillwater. Of these students about 80% receive financial aid and/or scholarships, with 75% of NOC students completing their degrees with zero debt.

Mission Statement, Vision, and Core Values

Mission

Northern Oklahoma College, the State's first public community college is a multi-campus, land-grant institution that provides high quality, accessible, and affordable educational opportunities and services which create life-changing experiences and develop students as effective learners and leaders within their communities in a connected, ever-changing world.

Vision

Northern Oklahoma College will be recognized as a model institution and leader in academic quality and cultural enrichment, promoting student success, collaborative learning, creative and forward thinking, and community responsiveness.

Life changing.

Core Values

Personalized Education:

We believe in providing individualized services that lead our students to achieving their academic goals in a welcoming and safe environment.

We believe in providing support to students in and out of the classroom so that they receive a full college experience with diverse opportunities.

Community and Civic Engagement:

We believe that educated citizens are necessary for a healthy, democratic society, and that free and open expression and an appreciation for diversity are cornerstones of higher education.

We believe in economic and environmental sustainability and the importance of enriching the intellectual, artistic, economic, and social resources of our communities.

Continuous Improvement:

We believe in the inherent value of intellectual pursuit for both personal and professional growth, as well as in the need to prepare students for 21st century professions.

We believe that a knowledge-centered institution is vital to a knowledge-based economy, and we measure our success against national models and standards of excellence.

Facilities

Northern Oklahoma College is a multi-location institution. The Tonkawa Campus, established in 1901, serves as the administrative center for Northern. All program oversight in academic, financial, student service, personnel, development, physical plant, and information technology is housed in Tonkawa. Over 1,500 students attend class on site, by ITV, or via online. Offering over 20 distinct degree paths with over 40-degree options and an array of courses, Northern distinguishes itself as a leading community college in Oklahoma. The Tonkawa Campus houses the Sheep Center as well as the Process Technology Programs.

The Enid Site, established in 1999 offering multiple two-year liberal arts degree programs to some 800 students each semester. The Enid site is home to The Mackie Planetarium and has an observatory. The Astronomy program works in conjunction with telescopes around the world.

The Stillwater Site, established in 2003, serves multiple missions to area students. Primarily a Gateway Program, the Stillwater site serves students who would otherwise not be admitted to Oklahoma State University. The site, however, also admits students seeking general education courses that transfer to other comprehensive colleges and universities. Northern Stillwater admits approximately 300 new students each fall and spring semester, serving some 1,700 students. A new Classroom Building completed in August 2018.

Life changing.
